PUBLIC TRANSPORTATION

Public Taxis

Public taxis are an affordable and convenient means of transport. The fare starts at 35B and thereafter it is about 2B per kilometer. If a driver insists on giving you a fixed fare instead of going on the meter, it is best to find another taxi.

Bangkok taxis come in multiple colours, but there is no difference in the fair structure for different-coloured taxis. Available taxis have a glowing red vacant sign. Drivers will usually round off the fare to the nearest 5B. Do ensure that you have small change, as drivers are generally unwilling to break big notes.

BTS

The BTS is the most convenient option for getting around Bangkok. The major shopping and dining areas can be easily accessed by BTS. Fares range between 15B to 42B depending on the distance travelled. There is a One Day unlimited travel pass available for 140B. It is non-refundable and valid only on the date of purchase.

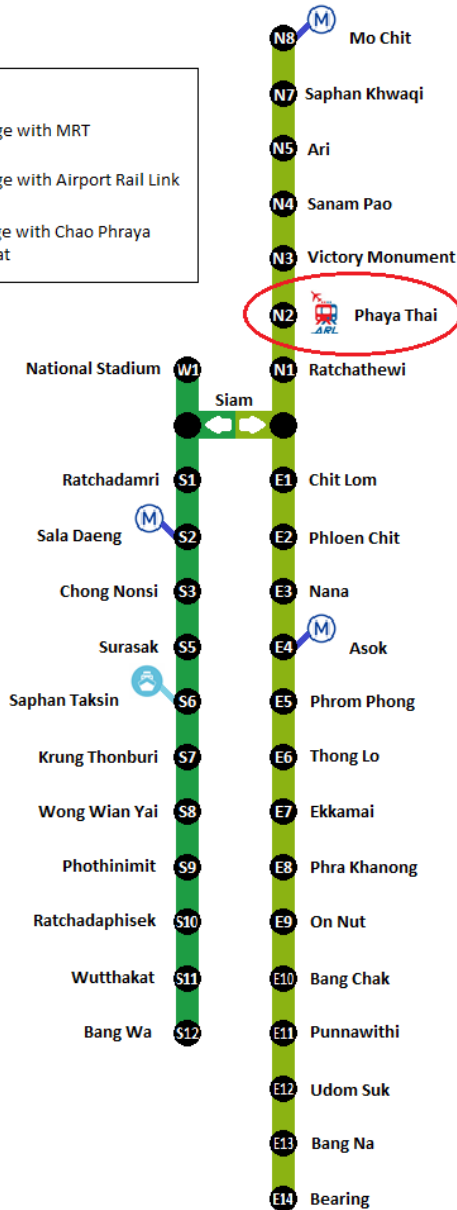

BTS tickets and the One Day pass are available at all BTS stations. You can find a map of the BTS on page 12.

For motorcycle taxis and tuk-tuks, be sure to agree upon a fare before you get on.
